

NARROW REED PRODUCT

DISCLAIMER

June 2026

Please Read Carefully Before Proceeding with Your Order

Thank you for choosing our Narrow Reed glass product. Please be advised that due to the depth of the reeded pattern, it may be difficult to achieve a completely smooth edge finish around the perimeter, especially with thicker glass.

While we take every effort to ensure that the glass is processed to the highest standard, the unique design of the Narrow Reed pattern may result in slight irregularities in the edge finish. Additionally, the final finish can be affected by the size of the panel and the end of the reed pattern.

We recommend that customers consider Narrow Reed glass as a decorative piece rather than as a fully functional element in applications where a smooth finish is required.

We are committed to providing the best quality products and services to our customers. If you have any questions or concerns regarding the Narrow Reed glass product, please do not hesitate to contact us.

By placing an order with Tough Glass, you acknowledge and accept these standards and tolerances regarding Narrow Reed glass.
